★ THIS IS WHAT PARENTS CAN DO TO HELP ★

- Scan the QR code above or in the school journal to access interactive resources and material on our website in relation to our SSE improvement targets.
- When checking/signing the school journal, take time to look at their plot graphs and targets for each subject and read their comments under each plot graph.
- Ask them what book they are reading during DEAR time in school. Is it one they would recommend to you?
- Encourage them to read in their spare time. Reading articles and novels can dramatically improve literacy skills. Suggested reading is available in the journal and on MyON.
- Discuss themed weeks with them and be aware when different themed weeks are taking place.
- Ask them what group work they are doing in classes. Are they enjoying it?
- What is the action verb of the month? The poster for this is also in the school journal.
- What new study skills technique did learn about during study skills week? Did they find it helpful?
